Agile Software Outsources Worldwide IT Infrastructure to OpSource

Turnkey IT Services Delivered in US, India, China, Germany and Switzerland

Santa Clara, Calif., June 7, 2004 -- OpSource, Inc., a next-generation IT infrastructure services company, today announced a three-year partnership to manage Agile Software Corporation's (Nasdaq: AGIL) worldwide network and application hosting infrastructure, including locations in the United States, India, China, Germany and Switzerland. Key members of Agile's IT staff in the US and India have joined the OpSource technical team, thereby ensuring continuity and knowledge transfer. This agreement underscores OpSource's core competencies in delivering reliable, high yield IT services, and firmly establishes the Company as an emerging leader in global outsourced IT infrastructure services.

"This is a strategic move for Agile, one that will reduce our IT expenses by 20% while improving the range and quality of the IT services that we use," stated Carolyn Aver, CFO, Agile. "We're confident that OpSource's comprehensive approach to IT outsourcing makes them the right choice for Agile. Moreover, OpSource's talent, experience, operational infrastructure, and best-of-breed processes promise a smooth transition to an outsourced IT model."

OpSource is responsible for monitoring and remotely managing the major hardware and software components of Agile's IT infrastructure. Services being provided include: managed

network services; managed server services including monitoring and remote management of Agile's internal server infrastructure up to the operating system level; management of Agile's unified Voice-over-IP (VoIP) messaging system; and management of Agile's hosted application Product Life Cycle (PLM) solution server infrastructure, including application layer management and monitoring.

"Agile's commitment to continually driving down costs while maintaining service quality makes it an ideal partner for OpSource," said Treb Ryan, CEO of OpSource. "Our innovative Service Delivery Platform™ (SDP) makes outsourced global IT infrastructure services an affordable reality for companies that want a highly efficient and responsive IT organization."

About Agile

Agile Software Corporation (NASDAQ: AGIL) helps companies drive profits, accelerate innovation, reduce costs, and ensure regulatory compliance throughout the product lifecycle. With a broad suite of enterprise-class PLM solutions, time-to-value focused implementations, and a unique Guaranteed Business Results™ program, Agile helps companies get the most from their products. Alcatel, Boeing, Dell Inc., Flextronics International, Hitachi, Leapfrog, Lockheed Martin, Magna Steyr, Siemens, QUALCOMM and ZF are among the nearly 1200 customers in the automotive, aerospace and defense, consumer products, electronics, high tech, industrial products, and life sciences industries that use Agile solutions.
