OpSource Named Finalist in 2006 SIIA Codie Awards

Optimal On-Demand Recognized as Superior SaaS Platform in “Best Application Management Solution” Category

SANTA CLARA, Calif., January 25, 2006 – OpSource™, The SaaS Experts, announced today that Optimal On-Demand is a Finalist in the Software & Information Industry Association's 21st Annual Codie Awards in the Best Application Management Solution category. This award category recognizes the infrastructure, technology or web hosting platform that best enables Software as a Service (SaaS) or hosted applications.

“The Codies have grown along with the markets they represent, and today competition is fiercer than ever,” said Ken Wasch, SIIA President. “That makes selection as a Codie finalist a true achievement, and OpSource should feel justifiably proud of its recognition.”

The Codie Awards nominations were judged by representatives from the software and information industry trade press, mainstream technology writers, analysts, consultants and subject-matter experts. OpSource’s Optimal On-Demand was been selected from many high-caliber products as one of the best in the software and information industry, which is a significant achievement.

“It is an honor to be selected by our peers as one of the ‘best of the best’ SaaS enablers,” explained Treb Ryan, CEO of OpSource. “We bring a fresh perspective to the software industry and our status as a Codie finalist validates our industry leadership, innovation and vision in enabling and accelerating the growth of Software as a Service.”

The 2006 Codie Awards will be presented at a gala event on May 16 at the Westin St. Francis Hotel, San Francisco, CA. For a complete list of the 2006 Codie Award finalists, please go to: www.siiia.net/codies/2006/finalists.asp.
