Advisory: OpSource Presents at Interop Las Vegas

Engelbrecht to Join Panel Discussion on Virtualization and Security

SANTA CLARA, Calif. – May 8, 2007

- WHO:** David Engelbrecht, senior director, product management, OpSource, Inc., the SaaS delivery experts.
- WHAT:** Engelbrecht will be one of four speakers on a panel discussion session titled, "Virtualization's Phantom Menace: Security." The transient nature of virtual machines introduces new security and compliance challenges not addressed by traditional systems management processes and tools. OpSource has dealt with these challenges head-on, as it uses virtual technologies pervasively to deliver its OpSource On-Demand platform. Art Whittman, Editor in Chief, Network Computing, will moderate a panel comprised of Engelbrecht and other leading experts, who will discuss the security risks inherent in virtualized environments and what can be done to mitigate them. Other panelists include Allwyn Sequeira, senior vice president of product operations, Blue Lane Technologies; Andreas Antonopoulos, SVP and founding partner, Nemertes Research; and Joe Fitzgerald, CEO, ManagelQ, Inc.
- WHERE:** Mandalay Bay Convention Center, 3950 Las Vegas Blvd. South, Las Vegas, Nev. 89109
- WHEN:** The virtualization and security panel discussion runs from 11:30 a.m. to 12:30 p.m. May 22. The entire conference runs from May 20 to May 25. Journalists and analysts are welcome and encouraged to attend. Complimentary credentials are available for qualified analysts and representatives of industry media. For credentials and/or to arrange an interview with Engelbrecht, contact Maureen Miller (above). Detailed information about Interop Las Vegas is www.opsource.net

About OpSource

OpSource™, the SaaS delivery experts, is focused on providing the operational infrastructure and ongoing services that enable software companies, On-Demand businesses, and Web applications providers to deliver and maintain the highest quality Web-based solutions. By choosing OpSource as a SaaS partner, OpSource customers are freed from infrastructure management and can focus on improving applications and acquiring new customers. The OpSource On-Demand™ infrastructure enables businesses to deploy SaaS and Web-based applications quickly, cost effectively, securely, and with high-quality standards. Companies at any stage in the application lifecycle, delivering any type of application, can benefit from our comprehensive services and expertise. OpSource is the only company to offer Success-Based Pricing™, a unit-based pricing model that allows businesses to begin with a modest minimum commitment and their expenses scale only when their revenue increases. For more information about OpSource, visit www.opsource.net.
