OpSource Wins SoftwareCEO/CompTIA Award for Most Innovative Service/Business Model

OpSource Turns Innovations Into Products and Services That Deliver Business Value to Software and Web Companies

SANTA CLARA, Calif., August 6, 2007 – OpSource™, the SaaS delivery experts, announced today that OpSource On-Demand[SM] has won the Most Innovative Service/Business Model in the inaugural SoftwareCEO/ CompTIA Software Innovation Awards. SoftwareCEO is the software industry's "Page One" for information and advice and The Computing Technology Industry Association (CompTIA) is the leading trade association for the world's IT industry.

"OpSource epitomizes the creativity and innovative spirit of the software industry," said David Sommer, publisher, SoftwareCEO. "The OpSource On-Demand platform transforms Web-based software delivery and enables a revolutionary shift in the way companies develop and deploy applications. By providing the operational infrastructure, application management services and 24x7 end user support, all priced on-demand, OpSource enables companies of all sizes to offer Web applications and software as a service. OpSource provides everything that's needed so companies can focus on building great applications, accelerating time to market and boosting sales."

Treb Ryan, CEO of OpSource, stated: "OpSource On-Demand has quickly become the most widely adopted SaaS and Web delivery platform in the world, serving hundreds of customers and millions of end-users, conducting billions of transactions every day. Regardless of whether early stage or existing powerhouse, all a software or web company needs is an application, and OpSource will deliver it over the Web for them. Not only do we provide all the infrastructure, network, application management and support, OpSource On-Demand also includes mission critical services such as customer on-boarding, billing and analytics. These services are all delivered under the OpSource success-based model that minimizes initial investment while insuring that expenses only increases as revenues grow. The Web is all about speed and OpSource is all about getting our

customer's application's delivered quickly, securely and profitably. After all, our customer's success is our success."

About OpSource On-Demand

A comprehensive, award-winning Web application delivery platform, OpSource On-Demand enables companies to quickly and securely offer applications on-demand. OpSource On-Demand is the only complete platform for Web application delivery, offering a best-in-class, fully scalable software, hardware and network infrastructure, including application management and 24x7 customer-branded end user support and a 100% uptime guarantee. In addition, OpSource On-Demand includes tools that accelerate revenue generation, such as billing and analytics. OpSource is the only company to offer Success-Based Pricing^{SM}, a unit-based pricing model that allows businesses to begin with a modest minimum commitment and scale expenses as revenues increase.

About CompTIA SoftwareCEO
In 2007, CompTIA is celebrating its 25th anniversary. Just as the information technology (IT) industry it serves has grown, CompTIA has also enjoyed remarkable growth over the past 25 years. The organization was founded by representatives of five micro-computer dealerships working together to find better ways to do business. Today, CompTIA has more than 22,000 member companies in over 100 countries around the world; and serves as the voice of the world's $1 trillion-plus IT industry. CompTIA is committed to advancing the long-term success and growth of the IT industry by helping organizations maximize the benefits they receive from their investments in technology; and by helping individuals to obtain the skills and credentials they need for productive careers in IT. For more information, please visit: www.comptia.org.

SoftwareCEO is a resource-packed electronic newsletter and web portal built by software executives for software executives. It's the software industry's "Page One" for information and advice on software marketing, software sales, software business, software pricing and financing, and software services. For more information, visit http://www.softwareceo.com.

About OpSource
OpSource^{TM} delivers Web applications and software as a service for on-demand companies, with hundreds of applications, millions of users and billions of transactions supported daily. OpSource On-Demand, the leading platform for Web application delivery, is defining how Web-based software is delivered. By choosing OpSource as their Web application delivery partner, companies are freed from investing in and managing the complex and costly infrastructure and services necessary to deliver applications over the Web. Rather, they can focus their resources on developing, marketing and selling their applications and services. OpSource On-Demand is suitable for companies at any stage of growth, with any type of on-demand application.

Headquartered in Santa Clara, CA, OpSource has Web Application Delivery Centers in Virginia, London and Bangalore. For more information about OpSource, visit www.opsource.net.
